DETAILED ACTION

Drawings

1. The drawings have been approved by the drafts person.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-5 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Japanese Patent No. JP-11151085A (June 8, 1999, Abstract Only).

'085 discloses an anti-human medullasin monoclonal antibody which can identify human medullasin in granulocytes. '085 also discloses a method of making the monoclonal antibody by fusing antibody forming cell and myeloma cell to form hybridoma which is cultured. Antibody is then extracted from the culture and may be used in a process for detection of medullasin in a sandwich assay. See the English translation of the Abstract.
